

# Course description

## F347e

### Software DOC

#### Course duration

The duration is approximately 1 hour, depending on the personal background knowledge and the study place.

#### Course type

Internet course.

#### Course goal

To show how the software DOC works in order to design electrical installations, including both low-voltage and medium-voltage systems, selecting the most appropriate solution.

#### Student profile

The webinar is intended for ABB employees (technicians, sales engineers and product managers) and customers.

#### Prerequisites and recommendations

The student must have a basic electro technical knowledge.

The following courses should be completed:

- F345e - Suite ABB e-Design

#### Course description

The course is composed by 2 modules, comprising a final exam. If the score of the final exam exceeds 70%, the completion certificate may be printed.

#### Main topics

- Overview of ABB software
- Working with DOC: managed products
- Features and main functionalities
- Typical work-flow
- Electrical design of a network
- Product dimensioning
- Curves
- Creation of technical documentation
