

RESIDUAL CURRENT DEVICES

DSE201

Compact Design with Enhanced Protection

The 1P+N electronic residual current circuit-breakers with overcurrent protection (RCBOs) DSE201, in only one module width, meet the demand for devices that fully protect modern installations against short-circuit currents, overloads earth fault

currents and indirect contacts, providing additional protection against direct contacts (30 mA versions). Each RCBO is fitted with a functional earth wire to guarantee the highest level of safety, even in case of loss of neutral.
