

DSE201

Compact Design eRCBO

The 1P+N electronic RCBOs, DSE201, in 6kA breaking capacity and only one module width, meet the demand for devices that fully protect modern installations against short-circuit currents, overloads, earth fault currents and indirect contacts, providing additional protection against direct contacts (30 mA versions). Each RCBO is fitted with a functional earth wire to guarantee the highest level of safety, even in case of loss of neutral.
