

SafeCAD 6 – System Requirements

Windows 7-10, 64Bit version

AutoCAD 2014 -2018 full version installed

Note!

Other applications installed, e.g. AutoCAD's "Mechanical" module might interfere with SafeCAD application. If problem occur, start SafeCAD from basic AutoCAD mode.

SafeCAD 6 – Installation notes

Run corresponding SafeCAD *.msi installation file

Program shortcut “SafeCAD 6” is created on desktop

First time SafeCAD is started a dialog box will appear in which a code has to be entered to unlock and activate the program. This code is supplied from ABB Jokab Safety when requested. Send an e-mail with your AutoCAD serial number to support.jokabsafety@se.abb.com to receive this code.
