Life cycle phase change of DigiVis 500 supervisory portfolio to Obsolete

1. LIFE CYCLE PHASE CHANGE

This document announces that the DigiVis 500 portfolio (see list), hereafter the product, will be transferred to the Obsolete phase of the ABB life cycle model on December 31st, 2017.

2. SUPPORT AVAILABILITY

In the obsolete phase the product is no more available. Most of the products can be replaced by comparable products from Freelance 2016 portfolio.

The following product support and services are available:

- § Replacement of DigiVis 500 obsolete parts by comparable products from Freelance 2016 portfolio

3. RECOMMENDED ACTION

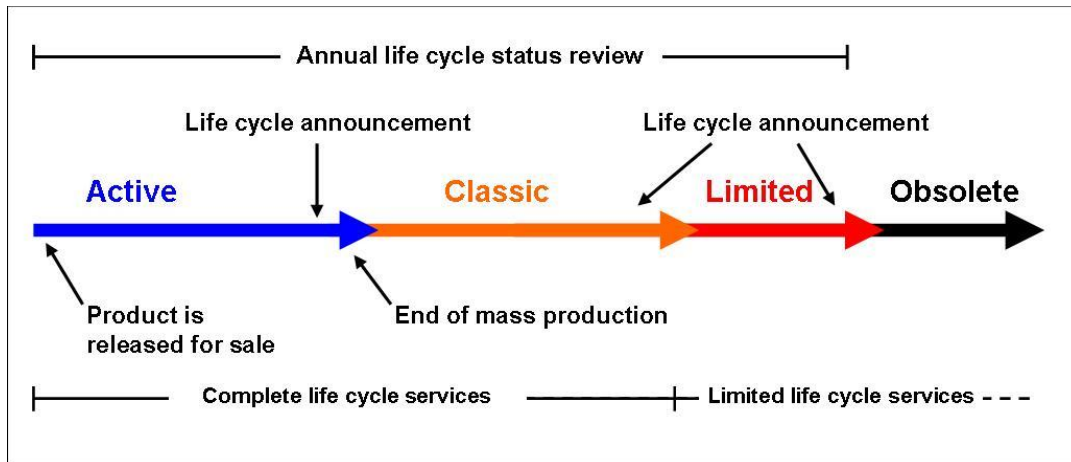

It is recommended that the DigiVis 500 obsolete parts (see list) will be replaced by comparable products from Freelance 2016 portfolio (see list).

4. FURTHER INFORMATION

For more information on the available services, such as replacement possibilities and the ABB life cycle policy for PLC, please contact your local ABB organization or ABB Product Support Sales & Marketing by e-mail plc.support@de.abb.com.

5. ABB LIFE CYCLE MODEL

Active

- Normal product sales and promotion phase

Classic (product maintenance phase)

- Product actively sold but without any major development
- An announcement within Classic phase is made to remove products from active price lists and catalogs
- It is still available for sale – mainly for expansion of existing systems
- No further enhancements – major latent anomalies still fixed
- Product is actively maintained
- Price may increase (e.g. due to lower volume, vendor components costs, etc...)
- Step-Up migration from older products to this version supported

Limited (Spare part)

- The manufacture of new hardware is no longer supported by development
 - § new hardware availability may continue, but is not guaranteed
 - § no new development to replace obsolete components
 - § increasing use of refurbished hardware
- Service support (field service, phone support, etc.) continues, but may diminish over time with decreasing installed base
- Spare Parts available from stock
- Price will increase due to lower volume and vendor component costs

Obsolete

- Only occurs when
 - § ABB is no longer capable of supporting the product technically
 - § It's no longer commercially feasible to do so
 - § Components / technology no longer available or direct replacement available
