Classic

Limited

Obsolete

Full range of life cycle services and support

Limited range of life cycle services and support

Replacement and end-of-life services

### Current life cycle status

The mentioned product subtypes of ACS6000c drive are in the <u>Limited</u> life cycle phase according to the ABB life cycle model outlined above.

### Life cycle plan

It is planned to keep the mentioned product subtypes in Limited life cycle phase until end of 2026, after which it will be transferred to Obsolete life cycle phase.

The Main Board Upgrade (AMC34) service is available until 31.12.2023. Thereafter the sale of this upgrade service is stopped.

Drives for which the Main Board Upgrade (AMC34) service is applied will follow the life cycle plan of the product subtype "ACS6000c after Main Board Upgrade (AMC34)".

### **Recommended actions**

It is highly recommended to apply the Main Board Upgrade (AMC34) service in order to extend the life cycle support for the installation.

Besides the upgrade service and the regular maintenance action no further actions are required.

### Product availability in Classic life cycle phase

These product subtypes are not available for sale.

## Service availability in Limited life cycle phase

See details at new.abb.com/drives/Services and contact your local ABB representative for availability.

# **Available Services**
