

PRODUCT LIFE CYCLE STATUS STATEMENT

SAMI MEGASTAR W after Control Upgrade (AMC34)

The ABB life cycle management model is designed to manage an orderly transition to new replacement products or to choose from various lifetime extending services. At the same time the model ensures access to continuing support for our customers.

Current life cycle status

The mentioned product subtype of SAMI MEGASTAR W is in the Classic life cycle phase according to the ABB life cycle management model outlined above.

Life cycle plan

With the scheduled sales stop of SAMI MEGASTAR W Control Upgrade (AMC34), the end of Classic life cycle phase is determined on the 31.12.2033. This schedule allows at least 10 years of Classic life cycle phase for all drives where the Control Upgrade (AMC34) service is applied.

Starting from 1.1.2034 the 3 years Limited life cycle phase will start.

Recommended actions

Besides the regular maintenance action no further actions are required. Complete life cycle services are available for SAMI MEGASTAR W after Control Upgrade (AMC).

Product availability in Classic life cycle phase

This product subtype is not available for sale. It represents drive's installations where the recommended Life cycle upgrade services were applied.
