

MEGADRIIVE-LCI (PSR) after Control Upgrade (PEC2)

Current life cycle status

The mentioned product sub-type of MEGADRIIVE-LCI drive is in the Classic phase according to the ABB life cycle model outlined above. It represents drive's installations where the recommended Life cycle Upgrade services were applied.

Life cycle plan

It is planned to keep the mentioned product sub-type in the Classic phase until the end of 2027, after which it will be transferred to Limited phase.

The ABB life cycle management model is designed to manage an orderly transition to new replacement products or to choose from various lifetime extending services. At the same time the model ensures access to continuing support for our customers.

Recommended actions

Besides regular maintenance no further actions are required. Complete life cycle services are available for the mentioned product sub-type.
