

MEGADRIVE CASCADE (PEC)

Current life cycle status

The MEGADRIVE CASCADE (PEC) is available as a replacement product for older generation cascade drives. It is in the Classic phase according to the ABB life cycle model outlined above.

Life cycle plan

It is planned to keep MEGADRIVE CASCADE (PEC) in the Classic phase at least until the end of 2025, after which it will be transferred to Limited phase.

The ABB life cycle management model is designed to manage an orderly transition to new replacement products or to choose from various lifetime extending services. At the same time the model ensures access to continuing support for our customers.

Recommended actions

No further actions are required. Complete life cycle services are available for MEGADRIVE CASCADE (PEC).
