

MEGADRIIVE CASCADE (PEC2)

Current life cycle status

The mentioned product sub-type of MEGADRIIVE CASCADE drive is available as a replacement product for older MEGADRIIVE CASCADE drives. It is in the Classic phase according to the ABB life cycle model outlined above.

Life cycle plan

The ABB life cycle management model is designed to manage an orderly transition to new replacement products or to choose from various lifetime extending services. At the same time the model ensures access to continuing support for our customers.

It is planned to keep the mentioned product sub-type – which is available only as replacement drive – in the Classic phase at least until the end of 2027; after which it will be transferred to Limited phase.

Recommended actions

Besides the regular maintenance no actions are required. Full range of life cycle services and support are available during the Classic phase.
