

PRODUCT LIFE CYCLE STATEMENT

DriveMonitor 4000 Reduced Version

The ABB life cycle management model is designed to manage an orderly transition to new replacement products or to choose from various lifetime extending services. At the same time the model ensures access to continuing support for our customers.

Full range of life cycle services and support

Limited range of life cycle services and support

Replacement and end-of-life services

Current life cycle status

The DriveMonitor 4000 Reduced Version is in the Obsolete life cycle phase according to the ABB life cycle management model outlined above since 1.1.2023

Product availability in Obsolete phase

This product not available anymore.

Recommended actions

In Obsolete life cycle phase ABB does not provide any services for the product, except disposal & recycling and replacement service.

It is recommended to start planning for a replacement of an alternative service as 1-to-1 replacement cannot be guaranteed.

ABB has the following alternative services for certain drive products in place as potential replacements for this product:

- ABB Ability™ Remote Condition Monitoring
- ABB Ability™ Remote Assistance
