

The ABB repair advantage

ISO-certified repair of electrical and mechanical components for ABB and other OEM equipment

More than 40 years of experience serving Pharmaceutical, Chemical, Oil & Gas, Power Generation, Pulp & Paper, Metals, Minerals, and Mining industries.

Brands supported: **ABB · Alfa Laval · Asea · Bailey · Brown Boveri · Fischer & Porter · Hartmann & Braun · Kent Taylor**

Repair advantage

ABB certified repair professionals have extensive knowledge and experience in providing accurate diagnostics and repair services. Where parts are no longer available or repairable, the repair center team can often fabricate a replacement part using specialized reverse engineering techniques.

Quality Testing

State-of-the-art, multilevel testing processes, from rapid component level to in-circuit and full functional testing are utilized. ISO 9001 certification assures repairs are completed under strict quality procedures. Continual investment in testing technologies and equipment is evidence of ABB's commitment to quality.

Warranty

Repairs are warrantied for a full twenty four month, exceeding original equipment manufacturer warranties in many cases.

Control Systems supported

- System 800xA
- MOD300
- Symphony Plus, Harmony, Infi-90, Network 90
- DCI System Six
- Masterpiece, Advant, SATT
- Freelance

Process Analytics supported

- Continuous Gas Analyzers (CGA)
- Gas Chromatograph (GC)
- BOMEM FTIR

Pulp and Paper equipment supported

- Multi-Drives
- Quality Control Systems (AccuRay)
- Frames and Sensors
- Web Inspection Systems (ULMA)
- Lorentzen & Wettre Instruments

Power Generation products supported

- Turbine Controls (ETSI)
- Flame Scanners
- Hydraulics

Advanced Services

- Depot Distribution
- Inventory Management
- Asset Management
- Reverse Engineering
- Fault Analysis
- Reporting

Other OEM Equipment Serviced

- Accuray
- Allen Bradley
- Aydin*
- BBC
- Beloit
- Conrac*
- DEC
- Emerson
- Fanuc
- Fenwal
- Fincor
- Foxboro GEC
- Ahlstrom
- General Electric
- Harnischfeger
- Hewlett-Packard
- Honeywell
- Keveex
- Measurex
- P & H
- Precise
- R.O.
- Shinko
- Siemens
- And Others

*AccuRay LCD Monitor is a current solution
