

PRODUCT LIFE CYCLE STATEMENT

# ACS600 multidrive (air-cooled)

The ABB life cycle management model is designed to manage an orderly transition to new replacement products or to choose from various lifetime extending services. At the same time the model ensures access to continuing support for our customers.

## Current life cycle status

The ACS600 multidrive (air cooled) is in the Limited phase since 1.1.2022, according to the ABB life cycle model outlined above.

## Life cycle plan

It is planned to keep ACS600 multidrive (air cooled) in the Limited phase until the end of 2024, after which it will be transferred to the Obsolete phase.

## Product availability in Limited phase

The product is no longer available.

## Recommended actions

It is recommended to either do a Retrofit or to replace the ACS600 with a new product family. Please contact your local ABB representative for more information on available Retrofit solutions or replacement products.

## Service availability in Limited phase

See details at [new.abb.com/drives/Services](https://new.abb.com/drives/Services) and contact your local ABB representative for availability.

## Further information

For more information on drives life cycle management and available services contact your local ABB organization or at [www.abb.com/drives](https://www.abb.com/drives).
