ABB DRIVE SERVICES

E-Learning

Service product description

Professional training enhances employee competence and motivation, improves site safety and productivity, and reduces downtime. ABB provides e-learning courses for your personnel.

Value to customer

- Possibility to study at your own pace, anywhere, anytime
- Savings in travel expenses and time
- Rapid updates to newest product information

Service includes

- Personalized access to ABB drives e-learning course or program including several courses for a defined period (typically six months)
- E-learning courses typically include virtual lectures and assessments on the topics of the following kind:
  - General product overview
  - Installation
  - Commissioning
  - Maintenance
  - Fault tracing
- E-learning course content can be studied in any order and as many times as the student desires during the access time
- One virtual lecture is typically 15–20 minutes. Course lengths vary from 30 minutes to 4 hours.
- Possibility to download training material in PDF format
- Certificate of course completion

Service does not include

- Personal support from the lecturer

Product coverage

- See the ABB University course locator: www.abb.com/abbuniversity

Customer responsibilities

- Each e-learning student must:
  - have a personal email address
  - register for the ABB e-learning system
  - reserve time to complete courses

Other terms

- ABB owns the copyright in all of the course materials
- Standard e-learning courses are in English. Some courses are also offered in other languages
- Internet Explorer 9 or newer is required
- Other terms according to the agreement between ABB and the customer
