

PRODUCT LIFE CYCLE STATEMENT

# ACS350

The ABB life cycle management model is designed to manage an orderly transition to new replacement products or to choose from various lifetime extending services. At the same time the model ensures access to continuing support for our customers.

Full range of life cycle services and support

Limited range of life cycle services and support

Replacement and end-of-life services

## Current life cycle status

ACS350 General Machinery Drives are in the Obsolete phase since 1.1.2020 according to the ABB life cycle model outlined above.

## Product availability in Obsolete phase

The product is not available in the Obsolete phase. It is recommended to replace the ACS350 with the latest generation drives, e.g. ACS355 or ACS380.

## Service availability

Only replacement and end-of-life service are available in the Obsolete phase.
