### Product types concerned

- ACS800-67-0480/0580-7
- ACS800-67-0480/0770-7
- ACS800-67-0480/0799-7
- ACS800-67-0480/1160-7

\* ACS800-67 product types with +C236 option are in Active phase until further notice.

### Current life cycle status

The ACS800-67 Wind Turbine Converters are in the Classic phase since 1.1.2019, according to the ABB life cycle model outlined above.

### Life cycle plan

It is planned to keep the ACS800-67 Wind Turbine Converters in Classic life cycle phase until the end of 2034.

### Product availability in Classic phase

New inverter modules (frame size R8i) are available as spare parts until further notice.

Contact your local ABB representative for availability of ACS800-67 Wind Turbine Converters and factory-installed optional devices for spare part purposes.

### Recommended actions

It is recommended to perform a design upgrade to existing converters and to follow the preventive maintenance program.

## Service availability in Classic phase

See details at [new.abb.com/drives/Services](http://new.abb.com/drives/Services) and contact your local ABB representative for availability.

### Service Agreements - ABB Drive Care

#### Installation and Commissioning

- Installation
- Commissioning

#### Training

- Drive Training

#### Spares and Consumables
