## Flow measurement

Whatever your needs  
ABB is at your service

With over 100 years flow and control experience ABB selects the right product and installation for you. Commissioning services with extended warranty ensure processes perform at their best from the outset.

Select a maintenance service that meets quality management systems and reduces downtime risk. Old products can become unreliable; choose a life extending service that doesn't break the budget. Let ABB help you reduce your costs and increase your profits.
