

ABB modular UPS. Always reliable and always available.

Availability is everything when it comes to a UPS, so ABB's modular UPS architecture is designed to make sure that power is always available when you need it. Each high-reliability, standardized module is self-contained and can be online-swapped at any time, so nothing has to be ever switched off – making routine maintenance safe and easy. And if one module gets into trouble, the others take over the load and keep the show on the road. Availability available now at www.abb.com/ups

Power and productivity
for a better world™
