

Solar inverters

Global product offering

ABB provides the most comprehensive portfolio of products, systems and solutions along the solar PV value chain that enable the generation, transmission and distribution of solar power for both on-grid and microgrid applications. The offering includes one of the widest portfolio of inverters. Big or small, commercial or residential, utility or industry, ABB has the power to support you.

Product / Offering	Benefits and features	Suggested applications
Solar inverters Inverters for residential-scale applications UNO-2/8,6KW REACT-3,6/4,6KW TRIO-5.8/8.5  Inverters for commercial-scale applications TRIO-10/50KW PRO-33 	<ul style="list-style-type: none"> – Compact and efficient design – Easy to Install – Expandable monitoring functions – Wide input range and high efficiency – High speed and precise MPPT algorithm for real time Power tracking and improved energy harvesting <ul style="list-style-type: none"> – High performance, robust enclosures, ease of installation – Innovative features to lower system Levelized Cost Of Energy (LCOE) and improve Return on Investment (ROI) on commercial solar installations – Wall-mountable, horizontal as option for 50KW model 	<ul style="list-style-type: none"> – PV Residential-scale single and 3-phase applications – Residential Energy Storage solution Decentralized photovoltaic systems for both commercial and utility applications, configuration for rooftop and ground-mounted installations.

Please note: This is ABB's global offering and some products might not be available in your country. Refer to abb.com for your location.
