

SERVICE OF MV, LV TECHNOLOGIES

# Training course CZ062

## Operation and setting of MNS iS

### Goal:

The goal of the course is to familiarize with MNS iS modular low voltage switchgear, its parameters, basic manipulation, maintenance, settings and required site conditions.

### Participant profile

The training is focused on engineers, operators and maintenance personal.

### Prerequisites and Recommendations

The course is built for switchgear operators and maintenance personal. Students shall have a basic knowledge of electrical switchgears.

### Learning Objectives

Upon completion students will be able to:

- understand the basics of MNS iS design
- parametrize protections and control logic
- know the basics of maintenance and fault investigation

### Modules

The course contains following topics

- O501 - MNS iS introduction, operation and setting

### Module Duration

3 days
