

Marketing Information, April 2010

new VD4 – vacuum circuit-breaker with  
modular mechanical actuator for primary  
distribution  
Split of production and sales

# New VD4

## Available versions with EL modular actuator

- Fixed versions with front operating mechanism
- Withdrawable versions for PowerCube modules and UniGear type ZS1 switchgears
- Available models
  - 12 kV, ... 3150 A, ... 40 kA
  - 17.5 kV, ... 3150 A, ... 40 kA
  - 24 kV, ... 2500 A, ... 25 kA

# New VD4

## Factories up-set

- Dalmine factory
  - 12 kV, ... 3150 A (\*), ... 31.5 kA
  - 17.5 kV, ... 3150 A (\*), ... 31.5 kA
  - 24 kV, ... 2500 A, ... 25 kA
- Ratingen factory
  - 12 kV, ... 3150 A (\*), 40 kA (\*\*)
  - 17.5 kV, ... 3150 A (\*), 40 kA (\*\*)

(\*) up to 4000 A with forced ventilation in PowerCube modules and UniGear type ZS1 switchgears

(\*\*) Dalmine factory also for Italian Domestic Market and agreed volumes for UniGear GFFF in Brno (with limitation to ex-market of UniGear GFFF in Dalmine)

**Power and productivity  
for a better world™**
