

LCM ANNOUNCEMENT

# EPPC - R Contactor series

## Obsolescence notice

ABB's products are designed for continuous evolution. It is ABB's goal to protect our customer's investment beyond the life-cycles of the underlying platform products.

### R contactor series obsolescence announcement

In accordance with the ABB global strategy, the R Contactor product ranges IOR, NOR, JOR, LOR, FOR, AM(F)-CC and all associated components will enter the obsolete phase of their life cycle on December 14<sup>th</sup>, 2018. These products will not have replacements in the ABB portfolio.

Due to slow activity on this product range and by re-focusing investments on core product lines, ABB France decided to stop this product line.

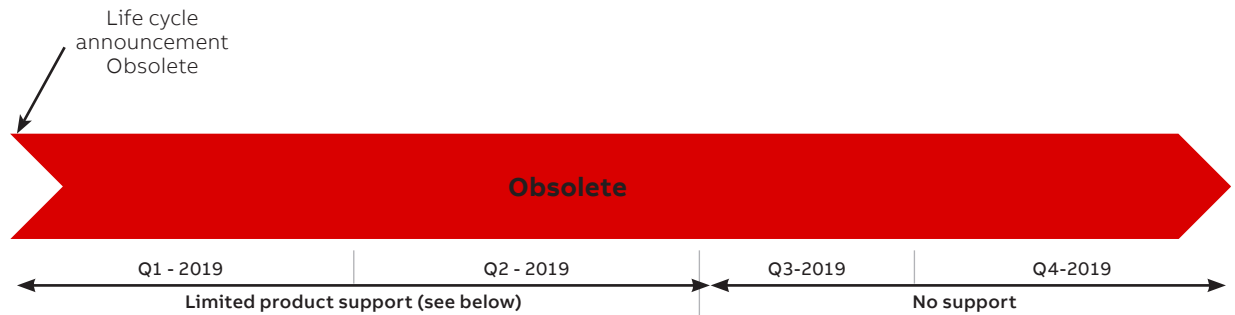

No orders will be accepted after this communication and ABB will not deliver any pieces or products after December 14<sup>th</sup> 2018.

### Product replacement

No direct replacement is offered by ABB. For alternative offerings or further information, please contact your local ABB sales contact or Product Manager that will provide support and details.

The bar contactors in stock will be transferred to Telarc S.r.l Italy ([www.telarc.it](http://www.telarc.it) or [bar-contactors@telarc.it](mailto:bar-contactors@telarc.it)) that will support for service and may supply equivalent products.
