ABB i-bus® KNX   **Software-Information**

Product: **IO-Actuator**

Type: **IO/S 4.6.1.1**
                                 IO/S 8.6.1.1

Current application program: **IO-Actuator, 4f/1.1a**
                                 IO-Actuator, 8f/1.1a

===

Software-Information   to: IO-Actuator, 4f/1.1a, IO-Actuator, 8f/1.1a
                                 from: 03/2021

1. General

                                 Change of the ETS catalog structure. No further changes to the previous
                                 version.

Software-Information   to: IO-Actuator, 4f/1.1, IO-Actuator, 8f/1.1
                                 from: 11/2017

1. General

                                 Optimization switching behaviour after bus voltage recovery or application
                                 download. (Parameter option *not write*)

Software-Information   to: IO-Actuator, 4f/1.0a, IO-Actuator, 8f/1.0a
                                 from: 07/2013

1. General

                                 The application is now available in 8 languages.

                                 (German, English, French, Spanish, Italian, Russian, Dutch, Polish)

Software-Information   to: IO-Actuator, 4f/1.0, IO-Actuator, 8f/1.0
                                 from: 11/2012

1.   General:

                                 Application program at time start of launch.
