

Course description

G3841e

ACS880-04/-04(F)/-04XT technical details, Internet course

Course type

Internet course

Course Duration

The course duration is approximately 20 minutes.

Course Goal

This course gives an overview of the technical details of the ACS880-04, ACS880-04(F) and ACS880-04XT drive modules.

Student Profile

This course is targeted for customers, partners, ABB sales, service and technical support personnel.

Prerequisites

- n G371e - All-compatible industrial drives, ACS880 series offering, Internet course
- n An Internet connection. The recommended browser is Microsoft Internet Explorer.

Course Objectives

Upon completion of this course, you will be able to:

- n List the dimensions and weights of the frames R10 and R11
- n Identify the drive type from the type designation label
- n Describe the optional features
- n Describe the basic fault tracing features
- n List the main service products
- n Describe the on-site service delivery concept
- n Describe which basic parts are replaceable on-site
- n Describe the basic maintenance actions

Main Topics

- n Physical dimensions
- n Optional features
- n General fault tracing procedure and tools
- n Main service products for ACS880-04/-04(F)/-04XT
- n On-site service delivery concept
- n Basic level maintenance actions
