| | | Supplier: ABB |
| | 20 | Review Comments: a. The proposed selector switch for lifting pumps is accepted. b. As indicated in this transmittal the selector switch shall be flush mounted on villa's boundary wall; hence the related schematic drawing(s) showing the exact location of the switch on the boundary wall, the wiring conduit routes between the switch, pump& panel board shall be provided for SANG approval prior to start of any related installation works. c. The included '3' years warranty certificate shall be revised in order to indicate the following items: 1. Shall be addressed to: SANG instead of SOL. 2. Warranty start date shall be from 'project initial handover date'. d. The a/m warranty certificate, after the above said amendments, shall be included in the related O& M manual submittal for SANG acceptance. |
