

Service package

AO2000 | EasyLine series

Comprehensive service support to secure process control

Measurement made easy

Service solutions for AO2000 and EasyLine series

Why ABB?

ABB is a leader in providing emission-compliant solutions. Working with ABB ensures your continuous gas analyzers really do operate continuously.

Our goal

Provide professional service support, so you can focus on your business.

Maintenance

Spares parts management

Measurement Care

ABB service offering

ABB has the expertise to deliver a dedicated plan to service AO2000, EasyLine and FID analyzers.

Our reliable service support covers the whole analytical system to extend product lifetime and minimize downtime.

Find the right level of support you need: on-call services, scheduled onsite maintenance, remote condition monitoring.

All services can be bundled into a Measurement Care service agreement based on the level of support you need:

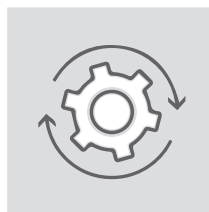

- Rapid response
- Lifecycle management
- Performance improvement

Continuous gas analyzers service package

Commissioning

Trouble-free start-up by a global network of factory-trained experts to ensure process reliability.

Preventive maintenance

Certified professionals performing inspections, cleaning and parts replacements at pre-defined intervals – annually, half yearly or every quarter.

Extended warranty (1 year)

For peace of mind access an additional year of warranty on continuous gas analyzers commissioned by ABB.

Calibration services

We will calibrate the measured components at pre-defined intervals to meet regulatory compliance.

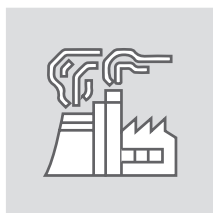

Technical support

Get expert advice over the phone should the CGA fail. One call to learn how your process can return quickly back to normal.

Training

Access eLearning, site / classroom training and qualify your staff to operate on CGA. A skilled workforce is your plant's best asset.

Corrective maintenance

Expert on-site support within a guaranteed time frame.

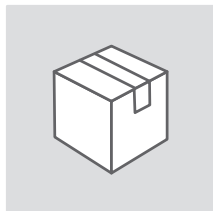

Measurement care

ABB can bundle these services within a tailor-made service agreement to meet your needs.

Remote condition monitoring

Provides system health checks and remote troubleshooting through secure remote connection.

Spare parts management

Stress-free – original parts and consumables for any emergency or scheduled service, 365 days a year.
