

ABB MOTION SERVICES

Workshop repair

Sustainable and high quality repair for your drive

ABB's dust-free and ESD-protected drives service workshops offer the perfect environment to fully repair your drive. From spares replacements to software updates, all work is full-load tested, backed by a two-to-three -year warranty, depending on chosen repair.

Genuine spare parts

Using genuine parts ensures your drive operates as designed. The drive or module is repaired according to the original specification.

Warranty for all repairs

For standard repair ABB provides a two-year warranty for the replaced components. For premium repair ABB provides a three-year warranty for the complete single drive or module.

Cleaning and load testing

Before repair, the drives are thoroughly cleaned, and after repair, tested with a load.

Global network

A global network of ABB authorized drives service workshops offer a consistent approach to the high-quality repair process.

Sustainability & Circularity

Workshop repair service helps to avoid up to 76% in CO₂ emissions as compared to a completely new drive replacement.*)

*) Study conducted by independent environmental consultancy. Comparison based on applicable Carbon Handprint Methodology (2022).
