**DNV-GL** 

# EUROPEAN UNION RECOGNISED ORGANISATION (EU RO) MUTUAL RECOGNITION TYPE APPROVAL CERTIFICATE

Certificate No: MRA000001N Revision No:

In accordance with Article 10.1 of EU Regulation 391/2009

This Certificate is issued to

# ABB Automation Products GmbH Heidelberg, Baden-Württemberg, Germany

for

**Monitors, Terminals** 

with type designation(s) CP604, CP607, CP610

The product is found to comply with

EU RO Mutual Recognition Technical Requirements for Display Monitors, Video Screens, Terminals

EU RO Mutual Recognition Technical Requirements for Computers and Programmable Logic Controllers

Intended service

Displays for control, monitoring, alarm, and safety functions subject to classification requirements.

System context: Application of the control, monitoring, alarm, and safety systems are subject for approval of the individual RO classing the vessel.

Temperature [°C]: 5°C and 55°C Vibration: ±1 mm / 0.7 g

EMC: All locations including bridge and open deck

IP Code: IP66 (front) / IP20 (rear)

#### This is to certify:

that the Product referred to herein has been inspected for the Manufacturer, pursuant to the relevant requirements of the European Union Recognised Organisation Mutual Recognition procedure, required by Article 10.1 of EU Regulation 391/2009, and has been found in accordance with those requirements.

| This Certificate is valid until 2023-03-2 | 21. |

Issued at Høvik on 2018-12-19

for **DNV GL** 

DNV GL local station: Augsburg

Approval Engineer: **Nils Jarem** 

Jan Tore Grimsrud Head of Section

Page 1 of 4

When a product is presented with this EU RO MR Type Approval Certificate for given application, its acceptability with regards to the limitations stated in the certificate conditions defined in 1b, 1c and 1d of the applied Technical Requirement will be evaluated by the EU RO in charge of classing the ship or being in charge of the unit/system certification.

This Certificate is subject to terms and conditions overleaf. Any significant change in design or construction may render this Certificate invalid. The validity date relates to the Type Approval Certificate and not to the approval of equipment/systems installed.

# Manufactured by

EXOR International S.p.A. NEXCOM (Taiwan)

# **Application/Limitation**

The Type Approval covers all hardware listed under Product description. The displays are intended for use in alarm and monitoring systems subject to classification.

All monitors are available with touch screen functionality, which is beyond the scope of this approval. The touch screen hardware has been verified according to the DNV GL Class Programme for EU-RO-MR, but any use of touch functionality in classed applications needs to be verified through functional testing.

The dimming function is programmable and needs to be verified through functional testing when used in a system subject to classification.

# Marking of product

Model name and part number: As listed under Product description

Serial number: Unique for each delivered item

# **Other Conditions**

The units have been verified for compliance with EU Mutual Recognition Technical Requirements for "Display Monitors, Video Screens, Terminals" version 0.3, dated 2016-04-01.

EU Mutual Recognition Technical Requirements for "Computers and programmable logic controllers (PLC)" version 0.3, dated 2016-04-01 have additionally been verified.

Environmental test parameters Temperature: 5°C and 55°C Vibration: ±1 mm / 0.7 g

EMC: All locations including bridge and open deck

Enclosure: IP20 standalone, IP66 when sealed to console (IP ratings according to IEC 60529)

Job Id: **262.4-000100-2** Certificate No: **MRA000001N** 

Revision No: 1

# **Periodical assessment**

The scope of the periodical assessment is to verify that the conditions stipulated for the type are complied with, and that no alterations are made to the product design or choice of systems, software versions, components and/or materials.

The main elements of the assessment are:

- Ensure that type approved documentation is available
- Inspection of factory samples, selected at random from the production line (where practicable)
- Review of production and inspection routines, including test records from product sample tests and control routines
- Ensuring that systems, software versions, components and/or materials used comply with type approved documents and/or referenced system, software, component and material specifications
- Review of possible changes in design of systems, software versions, components, materials and/or performance, and make sure that such changes do not affect the type approval given
- Ensuring traceability between manufacturer's product type marking and the type approval certificate

Periodical assessment is to be performed annually and at renewal of this certificate.
