

Course description

G204e - NETA-21 remote monitoring tool and Drives service, Internet course

Course type

Internet course

Course Duration

The course duration is approximately 20 minutes.

Course Goal

The goal of this course is to understand the features of NETA-21 and the benefits of the Remote Support service.

Student Profile

This course is intended for sales managers, sales engineers, product managers, anyone selecting or dimensioning the NETA-21, or anyone wanting to know the benefits of ABB's Remote Support service.

Prerequisites

An Internet connection. The recommended browser is Microsoft Internet Explorer.

Notes

If you have no experience of working with drives, it is highly recommended to take a hands-on course in addition to this course. Then you will be able to utilize the drive to its full potential.

Course Objectives

Upon completion of this course, you will be able to

- Understand the benefits and list the main features of NETA-21.
- List the connectivity options of NETA-21.
- Understand the NETA-21 web interface.
- Define the compatibility of drive-specific PC tools.
- Understand the principles and benefits of the Remote Support service.

Main Topics

- Benefits and main features of NETA-21
- Connectivity options of NETA-21
- NETA-21 web interface
- Compatibility of drive-specific PC tools
